## SUMMARY

A passion for everything film, a creative mindset and a constant hunger for pushing himself are the strongest attributes of this young filmmaker called Kristian. With 10 years in the business of moving images, he certainly has the right toolset to put those attributes into action.

Having started from the bottom of the food chain, he steadily rose through the ranks. Starting in assistant roles, then as a gaffer, to finally working as a cinematographer and director, through all of this he garnered broad expertise in all things film, including but not limited to: Directing, Cinematography, Editing, Writing, Animation, Still-photography & color grading.

Topped off with a BA in film directing and screenwriting, he is ready to meet any challenges boldly and go above and beyond to achieve a perfect result.

Oh, and he has a awesome beard and plays the guitar too, pretty cool right?

## THE BASICS
